Our Philosophy

As Hillsborough Republicans, we proudly support President Abraham Lincoln's vision for democracy in America- "Government of the people, by the people, for the people." With this mindset, our common goals for the future of Hillsborough include:

- Keep Hillsborough Township safe
- Maintain a smart, efficient, transparent and responsive government
- Keep taxes low for residents and businesses
- Maintain fiscally responsible policies ensuring that we maintain our AA+ or better bond rating
- Ensure responsible development plans and infrastructure investment that maintain the long-term sustainability of our town
- Protect our open space, parks and farmland
- Support and encourage equal and inclusive opportunities for all our citizens and businesses
- Encourage a culture of high integrity and family values
- Actively support candidates for elected office that will champion these ideals
